

Old Sarum Airfield Consultation

Concept plans show 470 houses in Ford & Old Sarum
The Parish Council have been opposed to significant development on the airfield since the drafting of the Wiltshire Core Strategy
The planning Inspector considered the site for potential development only. It is not a strategic site, therefore no need for development. More housing will not solve any noise problems
The Parish is already swamped with new housing 500 Hampton Park 673 Longhedge 800 Old Sarum 150 Laverstock further housing is not required. House building is not the solution to support a historic Airfield.

Friday 12th December OSAL are holding a community consultation in the cafe at the airfield starting mid morning until 8.30pm

This will give people time to attend during the day or after work.

This is an ideal opportunity to view the proposed development of the airfield and make your stance known to the developer prior to any planning application being lodged with Wiltshire Council.

Once the formal planning application has been received, it is **vital** that your views are placed with Wiltshire Council planning department.
