Log Number	ASSET for the Parish	Serving BENEFITS to the Parish	SUPPORT from the Parish Council	Date entered
0019	Longhedge Community Open Space and Public Open Space	<p>The informal Community Open Space at Longhedge will include a new Country Park and a linear green space set around a Sustainable Urban Drainage system of Swales. The Country Park will include wildflower meadows and wetland area with interpretative features together with play areas which will be constructed with input from children in the design. The total area is approx. 34 acres. This far exceeds the normal allocation and was negotiated by our Parish Councillors.</p> <p>The formal Public Open Spaces at Longhedge include football pitches with changing rooms featuring Public Art (see log number 0018) Street trees and small areas of greenspace feature throughout the development.</p> <p><b>Meets Parish Plan Key Issues:</b> 2,3,4, 5, 6,7,8,9</p>	<p>We have engaged proactively with the provision of Open Space for our new community at Longhedge from early conversations with the development promoter to the current close engagement with the two developers we are ensuring that both the informal Community Open Space and the formal Public Open Space are constructed to the highest standards in a way that means we can take on the ownership and management of all open spaces with minimum cost to residents and maximum quality standards. We have also ensured there is abundant use of street trees and small areas of greenspace to be maintained by the Developers Management Company. Currently we are working with the developers to help them overcome unplanned spoil issues they have encountered. Our expertise in the provisions of new greenspaces means we often find ourselves guiding the developers consultants on innovative solutions that will bring maximum value to our residents.</p>	<p>20 March 2016</p> <p>DB IM</p>
